Explanation

The poet says that things go wrong many a time.

The road where one is walking is uphill. The money is less but the debts are high. One wants to smile but has a sigh. Care is pressing one down. In all such situations one must rest and not quit the show.

Life with its changes is strange.

We learn this some time. There come many failures when one might have won had he persisted.

One must not give up though the pace is slow. One may succeed next.
